

HAVE YOU CONSIDERED GENERATING YOUR OWN NITROGEN IN YOUR BUSINESS?

ENERGY EFFICIENT GENERATORS, SAVING YOU MONEY

If you currently buy industrial nitrogen, either in bottles or as liquid gas delivered by tanker, these are expensive options for your business.

Replace these with on-site generators that are **up to 80% more cost-effective** and see a return on investment in **as little as 12 – 24 months**.

Supplying **up to 99.999% purity**, these generators are ideal for businesses dealing with laser cutting, sheet metal, fabrication and other forms of manufacturing.

Designed to operate continuously to match demand, and as modular systems, our generators can be updated to meet changing needs.

NEED ADVICE? CONTACT OUR TEAM TODAY

Here at **Air Kraft**, we offer a full service, from friendly advice to supply, installation, servicing and repairs.

With finance options available that we can set up for you, we will work with you to find the best nitrogen generating system for your business.

MEET CHANGING DEMAND WITH ON-SITE GENERATION

As a result of Covid-19, your production patterns may have changed, affecting your compressed gas usage. With on-site generation, you can continuously match demand, and as modular systems, our generators can be updated when necessary to meet changing needs.

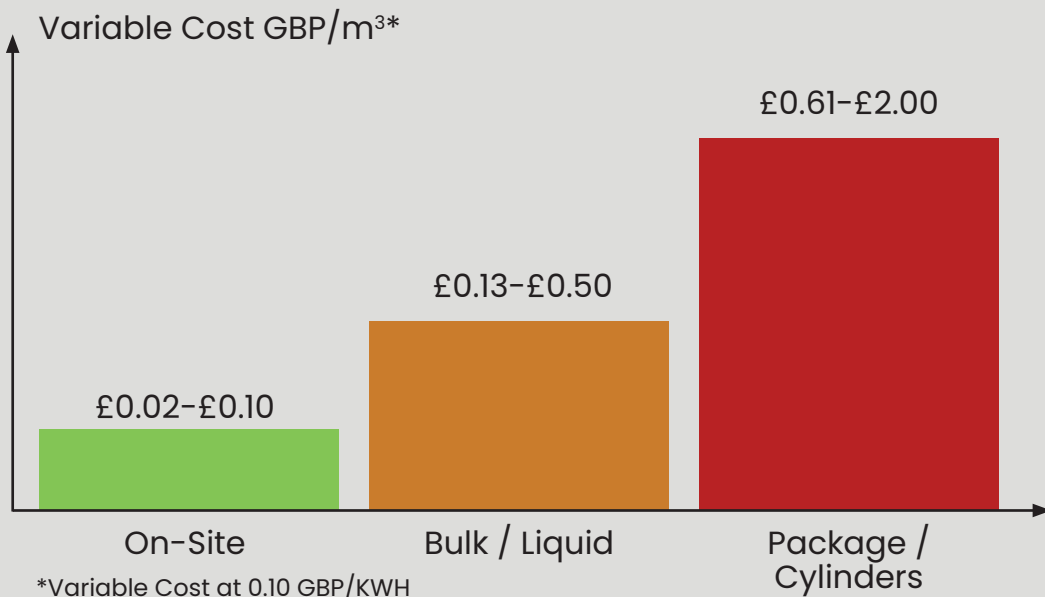

We know that this kind of change is a big decision for businesses, but ultimately our primary focus is to **help you save energy**.

With finance options available that we can set up for you, we will work with you to find the best nitrogen generating system for your business and a finance package that is affordable, while allowing you to reap all the benefits of generating your own nitrogen on-site.

PROVIDING YOU WITH RELIABLE AND EFFICIENT NITROGEN

HOW DO THE DIFFERENT OPTIONS COMPARE?

Do ask us for a specific cost calculation for your site, but here's how the different options for using nitrogen in your business compares.

TRY BEFORE YOU BUY

Take up our **Try Before You Buy** offer with an Atlas Copco Skid Package installed in your workplace to see these benefits of on-site nitrogen generation:

- A reliable supply at a consistent level of purity.
- No waste, compared to the last 10% in cylinders.
- Produce on demand and save on refills, delivery costs and admin time.
- Safer than storing cylinders.

Contact us for more information.

SWITCH TO ON-SITE GENERATION AND AVOID NITROGEN WASTE

HIGH QUALITY COMPRESSED AIR SYSTEMS FOR TRADE & INDUSTRY

Based in Coventry, **Air Kraft** has been supplying, installing and maintaining air compressor systems, in the Midlands and beyond, since 1993.

Dealing exclusively in market leading **Atlas Copco** products, which are known for their reliability and impressive energy savings, we are one of only a handful of Atlas Copco Premier Distributors in the UK. This means we have been selected as the best local air professionals and are trained to the highest standards.

We are also SSiP SafeContractor accredited.

REASONS TO WORK WITH AIR KRAFT

We like to let our customers do the talking, so here are just a selection of testimonials from our existing clients:

“

I know I can always rely on Air Kraft, they have a commitment to their customers and do not disappoint.

Robert Stone, Savcon

”

“

Air Kraft offer a second to none service and their engineers are incredibly knowledgeable on all of the products they offer.

Steve Yates, Stechford Mouldings

”

“

In all of our 29 years as a company, Air Kraft have completely exceeded other service providers. We have never been more satisfied with the service, presentation and dedication to provide for our needs, both technically and in support.

Lee Porter, Reach Printing

”

“

We have used Air Kraft for over 8 years now after finding our previous support unable to meet our requirements. They are a professional and friendly team who make every effort to meet our needs in this difficult climate.

Anonymous

”

“

Air Kraft helped us overcome some significant challenges in our air compression system, from building a business case through data analysis to seamlessly installing a product tailored to our needs. We couldn't be happier for them guiding us every step of the way.
Thank you Air Kraft!”

Anonymous

”

“

Air Kraft's service engineers arrived at our company within 10 minutes of calling them. Alongside this they were incredibly helpful and polite. They have shown me great customer service does still exist!”

Karen, Herald Way Tyres
